## OBJECTIVE

---

Postgraduate student in Information Technology Solutions with 2 years of specialized experience in web development, primarily using Java technologies. Proficient in Core Java, Advanced Java, JSP, and MySQL, with strong front-end expertise in HTML, CSS, JavaScript, and jQuery. Adept at developing scalable, interactive, and responsive web applications by leveraging modern development methodologies and APIs. Seeking a challenging role to apply my skills in designing and optimizing dynamic web solutions while continuously expanding my technical expertise.

## EDUCATION

---

- **Post-Graduation:**  
Information Technology Solutions, *Humber College* Jan 2024 – present | Canada
- **Bachelors:**  
Computer Engineering, *Gujarat Technological University* Jul 2017 – Jun 2021 | India

## PROFESSIONAL EXPERIENCE

---

- **Programmer at** Uffizio Technologies, Ahmedabad, India  
Sept 2021-Dec 2023
  - Work in telematics web development, primarily focused on GPS tracking and data analysis.
  - Work on the following projects
    - Trakzee
    - Smart Waste Management
    - Task Eye
    - Smart Bus
  - Designed and optimized algorithms to generate meaningful insights and reports based on GPS data, facilitating informed decision-making.
  - Implemented data visualization techniques to present GPS data in clear and actionable formats, such as maps, charts, and dashboards.
  - Worked primarily with Java as the back-end language, developing and maintaining.
  - Developed responsive websites using HTML, CSS, and JavaScript with libraries such as Bootstrap and jQuery, ensuring a seamless user experience. In addition, created JSP pages to dynamically generate server-side content
  - Utilized MySQL for database management and data storage.
  - Designed and developed APIs for the mobile team to facilitate data exchange between the web and mobile applications.
  - Conducted thorough code reviews, testing, and debugging to ensure high-quality and error-free code.

## Languages and Technologies

---

- **Front-end technologies:** Html, CSS, jQuery, Bootstrap, JSP
- **Back-end technologies:** JS, Java, Node JS, Express JS, PHP
- **Database:** MySQL
- **Tools and platform:** postman, Git & GitHub, Eclipse IDE
