Brampton, Ontario, L7A 4M5, Canada | +14379553994

I'm an IT student dedicated to web and app development. I thrive on innovative problem-solving and continually expand my skills to contribute to efficient, transformative technology-driven solutions.

Education

Sardar Vallabhbhai Institute of Technology   Jun 2019 - Jun 2024

Bachelor Computer Engineering

GPA: 8.1

Humber College   Jan 2024 - Mar 2024

Information Technology

Work Experience

Medication Reminder Application   Jan 2025 - Present

- This project is a medication reminder application that enables users to schedule, track, and manage their daily medication routines. Featuring an intuitive interface, customizable reminder settings, and seamless integration with calendar notifications, the system ensures users receive timely alerts, promoting consistent and effective medication adherence.

Caf u00e9 management System   Jul 2024 - Aug 2024

- The Cafe Management System is a C# application designed to perform CRUD operations on key cafe data. This system enables users to efficiently manage cafe operations, including adding new menu items, retrieving order details, updating inventory records, and deleting outdated entries.

Web Developer   Feb 2023 - May 2023
Kashcandi Technology | Vadodara

- Learned React.js to develop dynamic and responsive UIs using functional components and hooks.
- Built reusable and modular components for improved scalability.
- Explored Node.js with Express to handle asynchronous operations efficiently using Promises, async/await, and middleware.

Promotion Coordinator   Dec 2022 - Jan 2022
Prakarsh National Inter College

- In this role, I spearheaded promotional initiatives for Prakarsh, a national-level technical symposium at my college. I managed campaigns across nine state zones, effectively promoting both technical and non-technical event activities in various cities.
